ORDER TRUST

YOUR NEW NORMAL FOR ORDER PROCESSING

Improve supply chain health and maximize contract savings by standardizing your order process

Ordering with non-automated trading partners quickly becomes a complex and time-consuming activity. Every email, fax and phone call impacts visibility and efficiency—costing you time and savings.

? Do you have a different ordering process for some suppliers?
Lack of standardized processes waste time for your buyers.

? Was your order received and will the product show up in time?
There is a lot on the line for healthcare when products don't arrive as planned.

? Are you receiving the contracted price?
This manual process takes time and can be error prone.

? How much time do you spend every day following up on order status?
This is time lost at the expense of more impactful work.

REDUCE COMPLEXITY AND IMPROVE VISIBILITY

Your suppliers have varying automation capabilities, but Order Trust puts you back in the driver's seat as you leverage the efficiency of My Exchange with all of your orders.
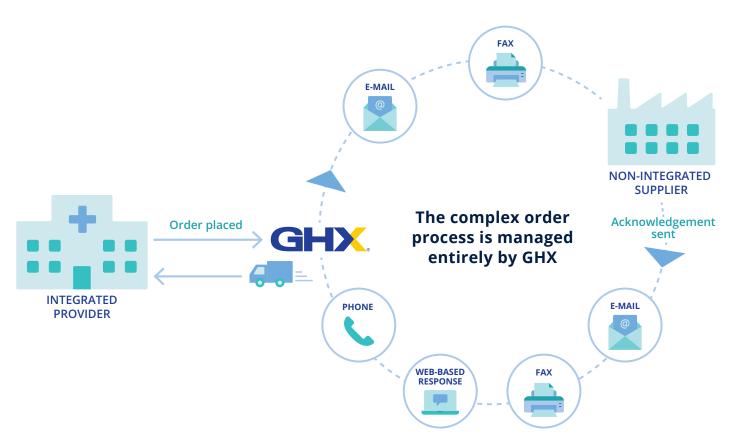

Standardized and automated process for placing all orders

Confirmation that your order was received within My Exchange
